# ABOUT GOALBALL UK

**Goalball UK is the National Governing Body for the Paralympic sport of goalball in the UK. There are currently over 30 active clubs in the UK and Goalball UK oversee the sport from grassroots through to the Paralympics**

Goalball is a fast-paced 3-a-side team game where the aim is to score past the opponent by throwing a weighted, bell filled ball toward their goal. Players block the ball with their bodies, and all players wear black out eyeshades to keep vision levels equal.

The game was invented in 1946 to rehabilitate soldiers who had lost their sight in the War, and it has been played over the world ever since. Making its Paralympic debut in 1976, there is no able-bodied equivalent.

We work to promote and provide sporting opportunities to blind and partially sighted people, UK-wide.
